# Typesy EDU

## "The Premium Keyboarding Program for Education"

Easy. Effective. Excellent.

Typesy works - that's because it includes a comprehensive curriculum based on the science of muscle memory and structured repetition. And students love to use it. It inlcudes step-by-step video teaching, effective exercises, and fun games. Typesy has redefined keyboarding for a new era.

Powerful Reporting. Easy Grading.

- Set up classes in minutes.
- See exactly how students are working and improving.
- Assess and grade quickly and reliably.

Cutting Edge Technology.

- Built on the latest cloud/app technology from Google and Microsoft.
- A rich experience for better student engagement.

Privacy. Security. Always Ad Free.

- Typesy does not display ads to students, EVER.
- Typesy does not share data with ad networks, or anyone else, EVER.

Compatible at Your School.

- Typesy was designed from the ground up to work with the technology setup at your school.

Why You Need to Teach Keyboarding:

- Keyboarding is required by the national common core standards.
- Improves results on computer-based tests.
- Students work happier and faster.
- Students will be ready for college and the workforce.

Concierge Support.

- Premium 24/7 support for teachers and administrators.
- Zero effort - we will do all the setup for you.
- Stay on the cutting edge with free unlimited upgrades.

Praise for Typesy

"Our deparment is very happy with Typesy. Typesy has met all our expectations regarding lessons, reinforcements, skill levels, typing challenges, and feedback. The Typesy support team is outstanding with teacher and student support, answering questions, and always in a timely manner. We will continue our investment with this program."

Cathy Cummings
Adviser
Center Joint Unified School District

"Our 2nd-5th graders have been using Typesy with great success. Students love the activities and are motivated to improve their keyboarding performance. The tech team at Typesy has been very responsive to any/all concerns."

Patrick Golub
STEM/TECH Instructor
Millington Elementary

"Typesy is a cloud-based app that allowed our class typing in under 1 hour. It's effortless to monitor progress of all students real time. I've seen the future of education applications! Thanks for designing a well rounded product that saves me tons of time."

Mark Rau
Instructor
Treasure Valley Baptist School

"Ease of use and effectiveness define this excellent typing software and make Typesy ideal for learning how to touch type."

John Carlsen
Reviewer
Top Ten Reviews

"Teaches students basic typing skills as well as advanced typing skills through a unique blend of instructional videos, scientifically-designed lessons, and entertaining games."

Scott Patterson
Assistant Editor
Education Technology

"Speeds up the students' overall educational progress as it helps them increase their typing speed…an easy-to-use interface that makes this program an outstanding tool."

Michael Karlin
Founder
Ed Tech Roundup

"Our students have found Typesy very easy to use and our teachers have seen big improvements in the student's typing skills in a short amount of time."

David Hurley
School Teacher
Eureka Secondary School

"Typesy's cloud based design provides great flexibility for classroom organization…very simple to implement and has not burdened our network resources."

Mark Nowak
Technical Director
Bethany Christian School

"After I unwrapped Typesy, I instantly saw the superior quality. There is just no comparison to other programs I have used over the years."

Tina Roberton
Founder
Tina's Dynamic Homeschool

"Typesy gives students a more challenging typing experience than what we were previously using. There is lots of practice that helps to cement the key locations into the mind."

Jason Strack
Computer Teacher
Spencerville Adventist Academy
